The power to achieve...

Founded in 1987 by a team dedicated to the pursuit of excellence, Concept Chemicals' unique position in the global chemical market is built upon its formulatory DNA bringing together 5 key attributes across all its brands, meeting the needs of leading operators and stakeholders across all transport sectors: automotive, transport, marine, aviation and also industrial.

Delivering innovative, problem solving solutions for professional cleaning, re-conditioning, polishing and detailing operations

**Problem solving
solutions, not
just products**

**Measurable
cost-in-use
economy**

**Speed and
ease-of-use**

**Versatility and
durability**

The benchmark in CONCEPT'S leading-edge chemistry and innovation ethos is not to be satisfied with just the best... but to strive for even better.

...Exports account for 80% of Concept's production.

World-class performance and quality

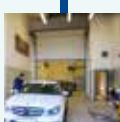

Worldwide Exposure - Thoroughly engineered for excellence

Headquartered in Manchester, UK, Concept's laboratories, factory, finished goods warehouse, innovation and training centre, serve customers in over 65 countries with exports now accounting for 80% of production.

MILESTONES

1987		Concept Chemicals founded in Manchester: launch of Systemised Program	Ford approves Concept to supply UK dealer network with PDI chemicals
1991		Refinish industry 1st: launch of Silicone Free Program	Direct Line the UK's largest accident repair company select Concept as sole supplier for silicone free chemicals
1999		UK Government awards Concept New Millennium Product status for World1st Compound	Developed in conjunction with Honda, UK
2000		Surf-ACE Brand launched	Autovaz (Renault) Russia's leading car manufacturer, chooses Surf-ACE
2004		Zirconite brand protective coatings launched	PINMAR (Spain & Florida) chooses ZIRCONITE for cleaning and coatings for mega-yachts
2008		Opening of UK Technical Training Centre	F1 Racing Teams, including Williams and BAR select Concept high performance products
2012		XPert-60 BRAND launched at Automechanika, Frankfurt	Professional quality products, for everyday use. Detail, retail and e-tail brand
2016		ZIRCONITE Ceramic Coatings launched at Automechanika, Frankfurt	ZIRCONITE brand approved by BMW in Belgium and Luxembourg
2018		Surf-ACE XTRA compounds launched at Automechanika, Frankfurt	World 1st DRA Technology chosen by Morrell's the UK's #1 furniture lacquer manufacturer
2022		ZG-365 GRAPHENE COATING launched	Working in collaboration with The University of Manchester's Graphene Engineering Innovation Centre (GEIC)

A continuous program of product innovation and development responds to solving customers problems.

Concept's products are formulated, then rigorously real-life-tested around the world. This ensures that the exacting standards of performance are achieved across the full spectrum of market, environmental and climate conditions, from the United Kingdom to New Zealand to Singapore to Dubai to Iceland and the USA.

Meeting these challenges across all climates of the World ensures that users of Concept products have the ability to deliver unrivalled vehicle appearance enhancement every time.

Used on everything from everyday vehicles, to multi-million-pound mega-yachts and aircraft as well as buses and trucks of all varieties; Concept's products make the world a cleaner, shinier and glossier place.

Whatever mode of transport; be it cars, buses, trams, trucks, trains, planes and boats: if it moves, it requires regular appearance conditioning attention.

Changes in vehicle component construction with more re-cycled plastics, and the evolution of paint systems, requires ongoing product development to utilise new chemistry technologies to 'treat' these new surfaces.

**World-first awarded
by UK Government to
Concept Chemicals**

High volume Cleaning Centre sites are required to process all vehicles under strict time constraints.

This is where CONCEPT's cutting edge chemical formulations shine, as they deliver the unrivalled professional performance combination of cost-in-use economy, speed-in-use, ease-of-use... and the perfect finish, First time - every time.

EXTERIOR CLEANING

Fall-out removal/New car prep

Wheel cleaners

Traffic film removers

Shampoos

Cleaning and degreasing

Roller- brush system

FALL-OUT REMOVAL/DEWAXING

#131: 5/25/200L

Colour changing wheel cleaner, paintwork & exterior decontaminant/fall out remover. pH neutral, acid free, non-caustic for use on all exterior surfaces: Paintwork, plastics, glass, chrome etc., delivering a bright glossy finish.

#133: 5/25/200L

Fall-out remover. Complex acid and surfactant blend to remove burnt-in particles of rust, rail-dust contaminant and general fall-out from paintwork, glass, plastic trim etc. Easy and safe to use.

#904: 5L

Unlike conventional soapy water, Clay-2-Go Lube is specially formulated to lubricate and protect the clay structure's integrity. Helps prevent marring of paint surface. Ideal for use in warm climates. Lubricates - Clay Bar, Clay Pad, Clay Towel during use.

#134: 200g

Cleaning clay. 'Miracle' problem solving cleaning bar to remove industrial fall-out, paint over-spray, tree-sap residues etc. from paintwork, glass, plastics, chrome. Saves time. Easy to use with Clay-2-Go Lube.

#116: 25/200L

Concentrated dewaxing fluid for co-polymer/acrylic coatings (transit lacquers). For machine or manual use, hot or cold. Concentrated formula gives economy in use. Only 0.5L of concentrate per car!

WHEEL CLEANING - ACID/NON-ACID

#131: 5/25/200L

pH neutral colour changing formulation delivers a powerful, safe and effective cleaning action producing a high gloss finish. Safe and highly effective cleaner for the removal of iron oxide particulates [industrial fall-out]. Safe on all exterior surfaces.

#113: 5/25/200L

High performance acidic based alloy & steel wheel cleaner. Rapidly removes ingrained black brake dust & traffic film from wheels and wheel trims. Gives a bright & shiny finish.

#112: 5/25/200L

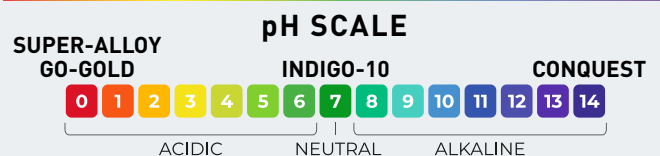

High performance, new generation non-acidic wheel cleaner for rapid, easy and safe removal of ingrained dirt & black brake dust from vehicle wheels: Alloys, painted & plastic trims. Will not damage sensitive wheel hubs and painted brake calipers.

#115: 5/25/200L

High-performance gel alloy and steel wheel cleaner. New generation. Non fuming, pleasant odour, non-corrosive to skin, high performance, plastic safe wheel cleaner. Rapid action.

pH ...and why it matters

WHAT IS pH?

pH measures the Acidity- Alkalinity of a chemical product in a numerical scale from 0-14. Each unit of pH represents a 10 fold increase in level, so for example a pH of 10, is 10 times more alkaline than pH 9, a pH of 11 is 1,000 times more alkaline than a pH of 8.

Strongly ACIDIC products (values 0-3) are efficient at removing rust - brake dust, mineral deposits - hard water, lime, calcium, concrete/ cement, grease and oils.

NEUTRAL products: values between 6-8 (pure water is around 7), are ideal for daily cleaning of lightly soiled surfaces. INDIGO-10 is pH neutral but it has remarkable and unique abilities to easily dissolve iron particulates (Fall-Out/Brake Dust) and traffic film, AND is totally safe on all exterior vehicle surfaces: Paintwork, glass, chrome, plastics and rubber. It does not attack or damage ceramic/quartz or nano-protective coatings, or concrete floors.

Strongly ALKALINE products have values 11-14 are efficient for removal of grease, oil, traffic film, brake dust and are safe on concrete floors.

Acid based cleaners undoubtedly have the greatest effectiveness in removing wheel brake dust, but other factors may also need to be taken into account in selecting the most appropriate wheel cleaner for an individual cleaning centres requirements.

TRAFFIC FILM REMOVAL

#105B: 5/25/200/1000L

Highly concentrated heavy-duty cleaner/degreaser & traffic film remover. New green technology plant-based surfactant system & no VOC's. Delivers excellent economy-in-use. Versatile – suitable for all types of vehicles, workshop floors, industrial equipment.

#505: 25/200/1000L

Super concentrated Traffic Film Remover and degreaser. Ultra-efficient and very economical across a wide variety of applications, including Automotive, CV, Plant, Industrial & Agricultural. Our most concentrated TFR.

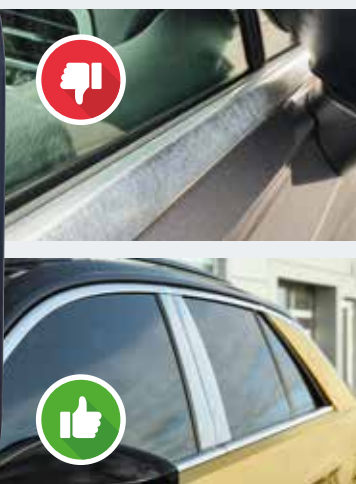

#105NEW: 5/25/200/1000L

Premium Traffic Film Remover, multi-purpose cleaner concentrate. Excellent pre-dilution options. Supercharged performance and Nano Wax Technology leaves cleaned surfaces bright and glossy with a 'just polished' look.

#102: 5/25/200/1000L

Aluminium safe, caustic free traffic film remover concentrate, chassis and engine degreaser. Ideal for use on prestige vehicle cleaning applications: does not damage bright or sensitive trims. Excellent all-round performance with economy in use for cars and commercial vehicles.

#106NEW: 25/200/1000L

Versatile TFR, cleaner, degreaser. Advanced cleaner to meet the complete range of cleaning tasks. Ideal for lower volume cleaning (body-shops, smaller garages etc.). Wax effect: Leaves paintwork clean, bright, reflective and with water beading surface enhancers.

TRAFFIC FILM REMOVAL

#091: 25L/200L/1000L

Delivers a highly visual stable snow-foam blanket, making it ideal for car wash and commercial cleaning stations. Clinging foam assists in cleaning performance in removal of traffic film, dirt, grease and oil. Concentrated formula for excellent economy.

#085: 25L/200L

Heavy duty winter cleaning/degreasing of traffic film, tar/asphalt. Low-odour cleaning system. 2 cleaning processes in one! Powerful micro-emulsion concentrate for extreme conditions, exceeds detergent regulations. Petroleum solvent and kerosene free.

#086: 25L/200L

Solvent cleaner for the efficient removal of tar, asphalt and traffic film in the harshest of winter conditions. Suitable for all vehicle types. High active formula ensures maximum speed and efficiency in the pre-wash process in high volume Car Wash Centres.

TRAFFIC FILM REMOVER DILUTION RATES

* based on low pressure dilution, 2.5 litres of diluted TFR used per car.

● bespoke coloured and fragranced snow-foams can be made to special order.

SHAMPOOS - WASH & WAX

#110: 5/25/200L

For 'hand' or machine use. Trade formula, rapidly lifts away dirt and road film leaving a bright streak free and sparklingly clear finish. Concentrated for economy.

#945: 5/25/200L

Superlative silicone free wash and wax manual shampoo - cleans and shines paintwork in one easy action. Concentrated for economy. Luxury foam action.

#098: 5/25/200L

Uses nano particles to reach a level of cleaning quality and efficiency that conventional shampoos cannot match. Twice as concentrated as conventional shampoos. Low foam and super fast rinsing action - rinse water sheets off saving time and cost on vehicle drying. Gives faster vehicle turnaround: No need

to generally chamois the vehicle as 90% of the water dries off leaving only minor amounts to dry. Avoids water spotting and leaves a 'just polished' finish.

KEY FEATURE	PRODUCT	pH level
Wax free	Auto Shampoo	7
Wash and wax	Profile	7
Low foam-fast dry	Speedy	3.5

ROLLER-BRUSH/CAR WASH

AUTOMOTIVE • COMMERCIAL & PSV PROGRAM

STEP 1

PRE-CLEAN

STEP 2

SHAMPOO

STEP 3

DRYING AGENT

#102: 25L

Highly active, casutic-free, aluminium safe, high performance cleaner and degreaser. A complex blend of surfactants formulated to generate a highly visual white foam when applied through car wash machines.

#125: 25L

High-active pH neutral premier quality shampoo, developed for frequent washing of coachwork, using automatic/semi-auto roller brush machine processes. Formulated to provide extra lubrication to roller brush filaments. Leaves a water repellent gloss finish.

#343: 1/5/25L

Super-fast high-gloss drying agent with wax protection, use on all exterior surfaces: inc. cabriolet roofs, delivers a protective coating with a hydrophobic 'lotus-leaf effect' giving long term water repellency. Boosts overall scratch resistance, even covering fine holograms.

#126: 5/25L

High-gloss drying agent for use in roller brush systems and manual applications. Brilliant finish with fresh/re-cycled water set-ups. Use with/without blow dryers. Superb Hot or Cold Wax, delivers rapid drying - nano-film keeps treated vehicle surfaces cleaner for longer.

CLEANING - TASK SPECIFIC

#213: 1/5/25/200L

Multi-function 'TOTAL' cleaner concentrate for all hard surfaces. Exterior and interior cleaner - hand or machine use; door shuts, under bonnet areas, wheels, upholstery, fabrics, carpets etc. Excellent cleaner for fabric & cabriolet hoods.

#111: 5/25L

High performance solvent blend for rapid removal of road tar 'spatter'. Quickly & easily removes tar, labels, sealant, adhesives, cavity wax residues. Not suitable for use on newly applied paint finishes or sensitive plastic trim eg light clusters. *Plastic safe option: Clear-Off #143.*

#137: 5/25L

Highly active surface cleaner to safely but efficiently remove dried on insect splatter and blood from a variety of vehicle surfaces (paintwork, glass, rubber and plastic). Suitable for cars, commercial vehicles, buses and trains.

EXTERIOR CLEANING

#143: 5L

Safely removes factory labels on new OEM body panels without damaging primer; new car labels/stickers, adhesive/sealant residues and road tar, from all interior and exterior plastics and paintwork. Safe even on plastic headlight clusters, speedo fascia, etc.

#129: 5/25L

Removes harmful bacteria as it cleans. Blends Delta detergent science with an active biocide to neutralise most common forms of bacteria. Low odour, easy rinse. Surfaces are not tainted. Use in transport, agriculture & food processing. NAMAS Certified.

#122: 5/25/200L

Powerful acid based fluid for removing concrete deposits and calcium from brickwork and paintwork. Fast efficient descaler for metal parts, cooling coils, steam cleaning plant, etc.

INTERIOR CLEANING

Multi-surface and specialist cleaners

Interior detailing

Glass cleaners

Leather care

Odour control

MULTI-SURFACE & SPECIALIST

#213: 5/25/200L

Multi-function 'TOTAL' exterior and interior cleaner concentrate. Hand or machine use; for quick, efficient cleaning performance on carpets, fabric seats, plastic door-scuff panels, roof linings, cabriolet hoods etc. Highly concentrated with excellent dilution options.

#214: 5/25L

Heavy duty hot water machine use detergent (*all makes*). Low foam system. Deep cleaning action contains special U.V. brighteners to restore fabric colours. Revives natural pile of fabrics/carpets. Super concentrated: 1 litre will clean up to 60sqm of fabric or carpet. No sticky residues.

#216: 5/25/200L

Rapid action caustic-free multi-purpose cleaner for: vinyl, PVC, plastics, fabrics, carpets, headlining's etc. Removes nicotine stains fast. Low pH: user friendly. Apply by manual, trigger spray or soil extraction machine. Advanced formulation will not mark glass.

#217: 450ml

Anti-static all purpose speed cleaner-shifts dirt fast. The versatile choice where speed is key. Vehicles: fabric seats, carpets, head-linings, door fascia, door shuts, sills, rubber weatherstrip, plastics, paintwork, sticky sweets from carpets, dried insects from windscreens, etc.

#218: 450ml

Specially formulated to quickly and effectively remove gum from fabric & vinyl upholstery, carpets, floors and walls. The handy solution for coach, bus, train and taxi operators. Safely removes labels from windows with heated elements and new body panels without risk of damage from a metal scraper.

GLASS & LEATHER

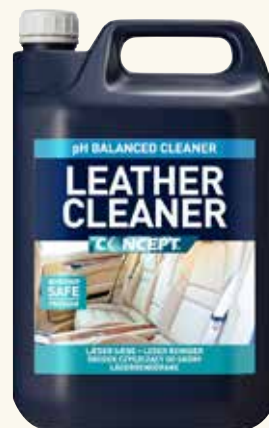

#235:
750ml/5/25/200L

Brilliant alcohol-free glass cleaner. Easy on - fast off. No streaking, no coloured rainbow haze. Removes haze dirt, grime, stains, greasy finger marks, nicotine, flies and more. Ammonia free. Great for mirrors and glass display cabinets. Sparklingly clear and squeaky-clean finish.

#323: 5L

Professional formula liquid cream for perfect streak-free cleaning and polishing of all glass windscreens and windows. Very low chalk, no dusting, non-marking on rubber surrounds. Improves wiper action. Efficiently removes heavy nicotine film in one application.

#331: 5L

A fast-acting professional pH adjusted detergent, for safe and efficient cleaning and freshening of leather upholstery and trim. Leaves a natural sheen finish. Systemised for use in conjunction with Leather Care Crème, to provide optimum care and maintenance.

#325: 1L

Nourishes and protects. A unique blend of natural oils and waxes to replenish and revitalise leather. Revives faded colour. Regular use protects leather, keeps it supple, improves stain resistance and extending life. Long lasting. Apply after using Concept Leather Cleaner.

ODOUR-CONTROL

#330: 1L

Powerful biological action to completely destroy a wide variety of bad and musty smells including: vomit, cat spray, dog smells, spilt milk, urine, tobacco odours, cooking smells. The professional answer for cars, taxis, coaches, buses, trains, aircraft, boats, ships, leisure industry buildings.

e.g. cinemas etc. where malodours within confined spaces can be a major problem and difficult to remove. Destroys and eliminates the bacteria which are associated with re-occurring bad smells, but also leaves a fresh clean fragrance. Fabric safe.

NEW 2023 FRAGRANCE SELECTION

#329: 1/5L

Neutralises and eliminates bad odours completely. Reacts with any unpleasant odours within all vehicle interiors. Bad smells are absorbed, not masked. Cost effective. No aerosol solvent hazards and fully biodegradable.

Fragrance choice options:

- #329: Bubble Gum/Cherry
- #339: Apple
- #349: Vanilla
- #359: Fresh/New Car
- #369: Cologne

#645: 450ml

Public service vehicle – carriage compartment air freshener. One shot instant air freshener for large vehicle interiors. Use in coaches, buses, trains, aircraft, ferries, hotels, canteens, sports halls etc. Eliminates odours instantly including tobacco smoke, food, animals, etc.

THE POWER TO ACHIEVE

...innovating for perfection

Concept's R&D team focuses on the most advanced chemical raw materials, to create innovative problem-solving chemical solutions in all sectors of vehicle cleaning and appearance conditioning.

Whatever mode of transport; be it cars, buses, trams, trucks, trains, planes. If it moves, it requires regular appearance conditioning attention.

Concept's cutting edge chemical formulations excel, as they deliver the unrivalled professional performance combination: cost-in-use, speed-in-use, and the perfect finish, 1st time-every time.

*FANTASY GLOSS LEVELS DETERMINED BY DILUTION RATIO - UP TO 1:5

#319: 5/25L

No-glare finish. Water based, multi-function spray cleaner & polish. Use on vinyl/plastic trim, paintwork, door shuts, door weatherstrip, boot drip channels, wood fascia and leather. Leaves no white polish residues on treated surfaces - the ideal door shut/drip-rail polish.

#318: 5L

Restores 'as new' satin finish to cockpit plastic trim instantly. Solvent based. Buffable to vary level of sheen. Interiors given 'luxury cleaned' fragrance. Long lasting anti-static finish.

#918: 450ml

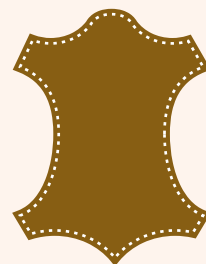

SILICONE FREE plastic trim conditioner for use in paint/body-shops. Instantly restore faded plastic, rubber and trim to 'as new': dashboards, door panels, centre consoles, air vents, etc. Controllable finish: Treated surfaces can be buffed with dry cloth to control level of sheen.

#324: 450ml

Super coverage, anti-static, hi-build, silicone spray. Ideal conditioner for faded absorbent plastics where instant build is needed e.g. mirror casings, bumpers, door handles, interior trim etc. Ideal non-stain lubricant e.g. sliding runners. Will not harm fabric or leather.

DETAILING

#325: 1L

Nourishes & Protects: Leather Care Crème is a unique blend of natural oils used to replenish those in leather which deplete over time. Periodic use will protect the leather, keep it supple and improve stain resistance. Leather Care Crème contains light cleaning agents but is

primarily designed for use on clean leather. Leather Care Crème is also suitable for use as a Silicone Free Conditioner for enhancing the appearance of vinyl dashboard, trim fascia and other interior/exterior plastic parts.

#322: 5L

Carpet & fabric dye for re-colouring badly stained or faded carpets. Ideal for trunk areas to restore a uniform colour. Effectively colours and covers any spare-wheel rust staining or, sunlight fading. Easy to apply by trigger spray or brush. Rapid drying formulation.

WAX POLISHING

#449: 1/5L

Resin wax car polish for new/late used vehicles. Mild cleaning action removes minor scratches and scuff-marks. Deep gloss and 'wet-look' shine. Very low chalk avoids dust on dark colours. Superb slip feel. Superlative deep gloss finish on all paint types. Bodyshop approved.

#461: 1/5L

Super high gloss, nano-technology polish for all modern finishes inc. ceramic clear coats. Wipe on – polish off. Deep 'wet-look' gloss and shine with extra durability vs conventional polishes. Extended wax protection and dirt repelling properties. Low Chalk: Minimises rubber or plastic staining.

465: 1/5/25L

Multi surface, solvent based speed polish with natural Carnauba Palm Waxes for a long-lasting shine. Super-fast: 'easy-on, easy-off' spray wax. Non-marking on plastics or rubber. Ideal for volume PDI processing, Can be applied on wet paint surfaces. Can be left on for days prior to final polishing/finishing.

#410: 900ml/5L

High-grade Carnauba Wax Polish – hand or machine use. Made with the purest Brazilian Carnauba Wax (*cera de ortho*). Contains no aromatic solvents. Developed to ensure a super-slip wax film. Seals paintwork, lasts up to 50% longer than conventional waxes. Buffs to a luxurious gloss shine.

#491: 750ml /5L

CONCOURS & SHOWROOM, SPRAY CLEANER & POLISH Problem solving spray cleaner and polish. Adds a protective coating which repels dust, removes fingerprint marks and smearing etc., making repeat cleaning easier. Perfect for showrooms, exhibitions and motor shows!

#768: 5L

Up to 3 months multi-surface protection for paintwork, exterior plastic trim, wheels, glass etc. 'Hydrophobic' formula repels water and dirt build-up making for easier repeat cleaning. Sealant cures for enhanced durability. Simple and easy to use – spray, wipe and buff off.

RENOVATING POLISHES

NEW!

#427: 1L

P-60 XTRA Superfine One-Step finishing compound incorporating DRA Abrasives Technology with Montan wax, for the removal of moderate to light defects, whilst adding deep gloss wax protection all in one-step! Corrects P4000/P6000 abrasive equivalents. DA/Rotary compatible. Silicone free.

#450: 1/5L

Triple action brilliant wax polish for new and used paintwork, hand or machine use. Removes micro-scratches, combines rapid and easy cleaning, colour restoration and a deep gloss shine. Truly versatile. Polyurethane reinforced. Unaffected by hidden water-trim residues.

#442: 1L

Black Nano-Carnauba Wax Polish. Brings full gloss back to problem black paintwork by eliminating/masking minor holograms / swirl-marks. Saves time and resources. Nano-tech bonds to paint surfaces driving off water, helping reduce dirt build-up, and making surfaces easier to clean.

EXTERIOR CONDITIONING

Plastic trim

Tyres and rubber

PLASTIC TRIM

#431: 5/25L

Solvent-based multi-function spray cleaner and conditioner - speed, versatility *and* super finish. Use on: engine compartments, plastics, rubber trim, bumpers, tyres etc. Can be used on wet or dry surfaces for fast vehicle throughput, no waiting. Highly versatile, gives a long lasting 'as-new' finish.

#432: 5/25L

Water based, premium quality, interior and exterior conditioner to enhance plastics, vinyl, rubber seals, engine compartments etc. Controllable finish: use undiluted for deep high-gloss sheen or dilute with up to 5 parts of water to reduce gloss levels. Anti-static, non-flammable.

#441: 1/5L

RTU high solids, solvent gel renovator for rapid restoration of all exterior plastics, bumpers, door strips, mirror casings etc. 'As-new' satin OEM appearance. Non-sticky final finish. Silicone free. For a long-life exterior plastic conditioner select Vista 469.

#469: 500ml

Long-lasting silicone free conditioner for use on exterior un-painted/textured plastic trim, bumpers, side-mouldings, mirror casings and spoilers. Restores older-porous and faded plastic trim. No water/rain streaking on forecourt display even after repeated washing.

#0262

Versatile applicator pad to give the user easy control and quick application of Vista for the perfect uniform finish. Sponge ensure coverage even in awkward exterior trim areas. Product is held in the sponge with no drips.

TYRES & RUBBER

TYRE DRESSING LONGEVITY SELECTOR

CONTAINS SILICONES	CONTOUR
	FANTASY
	SPORT
SILICONE FREE	DRIVE
	OUTLINE

#455: 1*/5/25L

Premium longest lasting waterproof cleaner and conditioner for extended forecourt display. Wets out on tyre effortlessly by brush, sponge or spray. Rapid drying. Anti-static. Non-tack. Non-aggressive solvent blend will not mark surrounding paintwork, plastics or wheels.

*1 Litre pack - special order only

#P906: 25L

Economy long-life tyre and rubber dressing. Leaves wet-look finish to tyres and rubber trim. Wets out on tyre surfaces effortlessly by brush, sponge or spray. Rapid drying. Anti-static. Non-tack. Non-aggressive solvent blend will not mark surrounding paintwork, plastics or wheels.

#440: 5/25L

Non-flammable water-based rubber dressing for tyres, mud flaps, floor and boot linings, rubber mats etc. For use on cars & coaches. Dries to a satin sheen 'as-new' finish. Non-stain dressing does not mark showroom flooring or carpets. Bodyshop-safe: silicone-free.

#963: 5/25L

Brush on silicone free solvent free tyre dressing with extended life 'water-proof' finish. Excellent coverage - wets out tyre surface without effort. Non-tack finish, non marking on surrounding paintwork.

#432: 5/25L

Multi surface detailer. Solvent free, non-flammable, water based long-life tyre and rubber conditioner. Dries to a long-life 'as-new' finish. Water resistant. For use on engine compartments, plastics, rubber trim, bumpers, tyres etc. Use with trigger spray or cloth.

PAINTS & COATINGS

Aerosol Paint: 450ml

- #433: SATIN MATT BLACK
- #443: MATT BLACK
- #444: ALL-BLACK GLOSS

Advanced Paint System: Technologically advanced acrylic formulations for durability and flexibility. Multi-surface: Suitable for application to both metal and many plastic surfaces.

Super Coverage: High solids formulation gives rapid drying and enhanced coverage allowing for fast turnaround. 'Factory' Match Standard: Quality of finish gives professional O.E. standard. An ideal 'guide coat' for paintshop use.

#436: 450ml

Fine silver aluminium finish - match to most O.E.M. styles. Gives low gloss sheen, not matt. Suitable for both steel wheels and plastic trims.

#439: 450ml

Super-fast coverage, ideal for car valeting of wheels, engine parts etc. Rapid drying. Professional finish on alloy/steel wheels and plastic trims.

#434: 450ml

High solids formulation gives enhanced coverage allowing for a fast and truly professional standard of finish. 'Factory' Match: to OEM-Ford Factory 'sparkle' coarse aluminium finish.

#456: 450ml

Fast drying, scratch resistant clear acrylic coating for over painting of metal and paintwork. Prevents corrosion on batteries, seals rear light clusters on trucks. Protects many surfaces from general weathering and against oxidation of copper, silver, aluminium and brass.

PAINTS & COATINGS

PLASBAK: 450ml

#437: PLASBAK BLACK

#438: PLASBAK DARK GREY

Highly flexible coloured plastic paint. The easy answer for recolouring of most types of self-coloured plastics and P.V.C. (vinyl) found on vehicles. Solves bumper staining permanently.

The problem solver for badly faded white stained plastics and vinyls e.g. bumpers, door strips, wing mirrors etc. Provides an original 'as-new' factory finish. Easy, simple and quick.

#458: 450ml

Advanced high solids acrylic formulation: - rapid coverage - quick drying. Ideal for all white household appliances e.g. fridges, freezers etc. Suitable for metal and rigid plastics.

#460: 450ml

Primer or finished coating for production and maintenance in, automotive, marine, construction and agricultural industries. Anti-corrosion: for steel and iron components/fabrications: pipes, ducting, water tanks, panels, etc. Exceptionally good primer coat.

#446: 450ml

Easy to use technologically advanced acrylic primer with enhanced covering power. For metal, wood and some plastics. Compatible with both acrylic and cellulose topcoats. Fast controlled performance, with enhanced covering power. Quick drying.

CLEANING/CONDITIONING

#217: 450ml

Versatile anti-static speed cleaner: The choice where utility is key. Cars: Fabric seats, carpet, headlining, door fascia and shuts, sills, rubber weatherstrip, plastics, paintwork, sweets from carpets, dried insects from glass etc. Home: Oily carpet stains, greasy splashes in the kitchen, etc.

#218: 450ml

Chewing gum remover formulated to quickly remove gum from fabric and vinyl upholstery, carpets, floors and walls. Handy solution for coach, bus, train and taxi operators. Safely removes labels from windows with heated elements and new body panels without risk of damage from a scraper.

#645: 450ml

Public service vehicle – carriage compartment air freshener. One shot instant air freshener for large vehicle interiors. Use in coaches, buses, trains, aircraft, ferries, hotels, canteens, sports halls etc. Eliminates odours instantly including tobacco smoke, food, animals, etc.

#918: 450ml

SILICONE FREE plastic trim conditioner for use in the paint/body-shop environment. Instant restoration of faded plastic and trim to 'as-new' look: dashboards, door panels, centre consoles, air vents, rubber etc. Controllable Finish: Surfaces can be buffed with dry cloth to control level of sheen.

#324: 450mL

Anti-static, super coverage hi-build silicone spray. Ideal spray conditioner for faded absorbent plastics where instant build is required e.g. mirror casings, bumpers, door handles, absorbent interior trim, etc. Ideal non-stain lubricant e.g. sliding runners. Will not harm fabric or leather.

35

SANITISERS/CLEANERS

#950: 750ml trigger/5L

KILLS: 99.999% of HARMFUL GERMS & BACTERIA CERTIFIED EN 14476

Kills Coronavirus Strains: Norovirus

2-in-1: Ready-to-Use Multi-Surface Cleaner & Disinfectant: Removes dirt and disinfects in one process. Anti-bacterial, Anti-Viral action: effective

across all washable hard surfaces, in all Private and Public Transport vehicles, Offices workplaces, kitchens, restaurants, bars, reception areas, home, gymnasia etc. No fragrance – non-tainting to food substances.

H1N1 [Influenza A]. Polio-Adheno CERTIFIED EN 1276

#948: 500ml/5L

70% ETHANOL FORMULA. Kills more than 99.9% of bacteria and germs on the hands, to prevent the spread of contaminating organisms. Effective at killing many types of bacteria, including MRSA and E coli; also effective against many viruses, including the influenza A virus, rhinovirus,

hepatitis A virus, HIV, and Middle East respiratory syndrome coronavirus (MERS-CoV). Quick drying no sticky residues.

#129: 5/25L

Removes harmful bacteria as it cleans. Blends Delta detergent science with an active biocide to neutralise most common forms of bacteria. Low foam & odour, easy to rinse off. Cleaned surfaces are not tainted. Use in transport, agriculture & food processing. NAMAS Certified.

#507: 25L

Super-efficient industrial cleaner for all industrial floor types: concrete, painted and tarmac surfaces. New green technology - plant-based surfactant system for Eco-friendly cleaning option. Super concentrated - gives dramatic savings when pre-diluted for use.

Floormats / Scrapers / Steel wool

FAST-FIX POLISHING PADS

P-15 White Compound Foam

#90017: 80x25mm
#89910: 150x30mm
#89912: 165x30mm
#90023: 175x25mm
Medium/coarse compounding foam. Use for removing deeper scratches from harder/aged lacquers. Durable and long-lasting polishing action.

P-15 Orange Swirl Remover Foam

#90025: 80x25mm
#90024: 150x25mm
#90027: 165x30mm
#90023: 175x25mm
Swirl removing fine compounding foam.

P-40 Black Finishing Foam

#MMB33009: 80x30mm
#91211: 150x30mm
#91213: 165x30mm
#MB33003: 175x30mm
Ultra-fine and soft polishing foam removes holograms, will not create swirls and leaves a mirror finish to any paintwork.

Fast-Fix Backing Plates

#B22204: Mini 73x14mm
#B22203: Maxi 112x14mm
#91104: Regular 138x14mm
#B22202: Super 156x14mm
Chamfered edge for easy peel without damage to pad. Backing plate fits exactly to the area of Fast-Fix to ensure easy centring of the pad.

Recommended
for automotive and
marine gelcoats

XC-15 Gold Micro-Wool Pad

#90015: 80x25mm
#90014: 150x25mm
#90026: 180x25mm
Delivers the speed of cut of a conventional lambswool pad without the creating micro scratches and swirls. Effortlessly removes deeper scratches (P1500) and leaves a high gloss finish.

Merino Lambswool Pad

#90016: 80x22mm
#90013: 150x22mm
#90012: 180x22mm
A pure 100% Merino natural lambswool for elimination of P1500 or finer scratch marks. Super-fast cutting action. Highly durable and washable.

Superbuff Double-Sided Wool Mop

#91108: 8 inch
Double-sided, deep pile lambswool heavy-cut pad. For fast renovation of larger areas of painted surfaces in automotive and marine applications. To use with 14mm thread polishing machines, order adaptor #91109.

#86802: UNIVERSAL PADWASHER

Efficiently and safely cleans compound and polish residues from all types of polishing pads; foam, wool, microfibre, etc. Robust construction, problem-free cleaning. Fast and easy to use - cleans and dries pads in under 30 seconds.

CHEMICAL SPRAYERS/DISPENSERS

#85101: EASI-SPRAY 'GREY-TOP'

1.5 L Pressure Sprayer, for use with Traffic Film Removers & alkaline detergents, 3C, etc. (pH 7-14). Adjustable nozzle from fine mist to jet. Replacement seal kit #85101/Kit.

#85101/ACID: EASI-SPRAY-'RED TOP'

1.5 L Pressure Sprayer for use with Acid based Wheel Cleaners, Fall-Out Removers etc. (pH 0-5). Adjustable nozzle from fine mist to jet. Replacement seal kit #85101/ACID/Kit.

#84901/20: MINI-SPRAY 600cc

Multi-purpose adjustable hand sprayer with chemically resistant trigger for extended life. Calibrated for ease of mixing.

#85601: ACID RESISTANT TECHSPRAY, 6L

For professional application of acid based cleaners. Directional lance. Adjustable nozzle. Viton seals for extended life. Safety valve with overpressure indicator. Acid-resistant replacement seal kit #85601/Kit.

#86101: SYPHON PUMP and ADAPTOR 200L

For 200L pack (#86101) #86101/A - Screw adaptor for fixing pump to drum.

#86001: 25L SYPHON PUMP

For easy dispensing of liquids from 25L drums.

#949/PUMP: PUMP DISPENSER FOR HAND SANITISER

Use with 5 Litre pack

#86401/TAP: DRUM TAP

For use with 25L drum.

#85701/50: HANDI-FILL

500ml dispenser bottle. Flip top closure.

#0011FT: 1L BOTTLE

1L clear bottle dispenser for those requiring a larger pack size. Flip-top lid.

#84901/ACID/TR/25: MINI TRIGGER PACK

25 acid resistant replacement triggers for Mini Spray Bottle.

#84901/1L/50: 1 LITRE TRIGGER REPLACEMENT PACK

1L chemically resistant spray trigger, cartons of 50.

#84901/TR/50: MINI TRIGGER PACK

Chemically resistant trigger for Mini-Spray Bottle. Cartons of 50.

MICROFIBRE CLOTHS

#0227/0227200: CAP-4 MICROFIBRE POLISHING CLOTH - **GREEN**

Packs: 10 x 3 printed bags (30 cloths), or

OTHER CONCEPT BRANDS

The complete story - from import centres to OEM supplies

Across its brands, Concept targets a variety of markets and users with high-performance products that consistently solve problems:

...giving you Xtra!

Surf-ACE brand: Providing performance-based products to the uniquely demanding re-finishing market - both in automotive, marine, aviation and industrial sectors. Surf-ACE products are used by vehicle OEM suppliers on production lines and in crash repair centres throughout Europe.

Professional products for everyday use

XPERT-60 brand: World-class automotive detailing, cleaning and conditioning products. Presenting Concept know-how in smaller pack sizes - this professional detailing range has an international following including Specialist Detailers, Retailers, E-Tailers and of course Enthusiasts who demand excellence in product performance & results!

Conquering the elements

Zirconite brand: Targeting the rapidly expanding protective coatings market, Zirconite products offer sales opportunities to both the new and pre-owned automotive industry, professional detailer and coating and protection products to the marine, aviation and industrial sectors.

Concept, Surf-ACE, Xpert-60 and Zirconite are all trade marks of Concept Chemicals & Coatings Ltd.
