Surf-ACE offer the complete package: technical expertise, an understanding of the job and the

ability to implement products that meet an organisation's expectations. Our working processes are about saving time, being cost effective and meeting standards. The level of support, and the quality of the products that Surf-ACE have in their range ensure that we deliver on performance and expectations to meet the customer's requirements. Surf-ACE offer a small product range to deliver the complete solution for both surface preparation and paint correction, which are quick and easy to use!

Chris Everett
LKQ

United Kingdom

After previously importing other brands which never delivered or met the end user's

expectations, we met the Surf-ACE Team at a trade show in Germany. We couldn't believe our luck, talking to professional people that understood the different markets and applications involved as well as the customer's needs and wants to offer the total paint correction solution.

Surf-ACE Products are certainly offering our customers the quality and performance they require in this very competitive market. P-12-XTRA great scratch removal, P-40 XTRA very little dropback and very easy to clean up

Fantastic products!

Seleron
Romania

In a market where time is money it was a relief to be introduced to the Surf-ACE Paint

Corrections System after trying many of the different brands on the market and, due to the products containing fillers, being very disappointed with the results 2/3 days after application.

Finally great to have a product range which delivers and performs consistently well on scratch removal and finish with no need to re-work on Gelcoats and paintwork.

In the marine sector travelling the globe to service and maintain luxury yachts for the UK's number one luxury yacht manufacturer the Surf-ACE Paint Correction System is the one we know and trust to deliver on our expectations and that of our customers.

The Surf-ACE Brand is backed by excellent technical support.

Chris Sharpe
Senior Paintshop Manager
Yacht Solutions
Plymouth

Surf-ACE compounds feature unique, world-first, DRA™ (Dynamic Response Abrasion) technology incorporating specially shaped micro-precision oxides.

Used in conjunction with appropriate Surf-ACE pads, the latest Surf-ACE XTRA Compounds provide a modern, easy-to-use technical solution to all paintwork problems across a range of industries.

- **Automotive**
- **Aviation**
- **Marine**
- **Industrial**
- **Furniture**

The ultimate paint correction combination, quickly and easily removes paintwork and gelcoat imperfections, random deep scratches and heavy oxidation in the shortest possible time delivering a unique depth of gloss and mirror like finish.

Contains no fillers or silicones

For use on: All automotive and marine paint systems including water based, UHS, HS, MS and gelcoat, infrared and accelerator cured paints, single component and 2-pack, acrylic, cellulose, synthetic and OEM finishes including Ceramic Clear Coats (Scratch Resistant Clear Coats).

The total paint rectification solution!

Providing performance based products to the uniquely demanding re-finishing market - in automotive, marine, aircraft and industrial sectors.

Award winning Surf-ACE XTRA products are used by vehicle OEM suppliers on production lines and in crash repair centres throughout Europe. Surf-ACE products are also used in the highly exacting marine and aircraft refinishing market where they prove themselves daily.

P-12 XTRA - where do I start - absolute fantastic compound, I've gone from

using Farecla and 3M to just P-12 XTRA. It cuts from 3000 grit no problem, with minimal effort leaving a great finish with no holograms and minimal drop back. It leaves no dust behind but also doesn't leave a layer of grease behind like most other compounds.

Slicked Detailing

Manchester

What our customers love most is the simplicity and the short time it takes

to remove scratches, even deep ones, plus the perfect gloss finish. Our sales agents also love how easy it is to sell it because it can work with almost all machines and pads, you don't need to turn down the customer because he does not have the correct equipment.

Elías Bergsson
Málningarvörur

Iceland

In a fiercely competitive market dominated by 3M and Fastcut plus for so many years, it

is great to have a product range which more than competes in the automotive, marine and furniture industries to meet our customer expectations. As a company, since switching from 3M to Surf-ACE products, we have not only retained our customers who were sceptical initially but have also moved forward and won new business.

Fantastic products strengthened by very knowledgeable technical support.

Krzysztof Chmielewski

RECTIFICATION PRODUCTS

LIQUID COMPOUNDS

P-12 XTRA

Quickly and easily removes paintwork and gelcoat imperfections, random deep scratches, and heavy oxidation in the shortest possible time to enable the end user to deliver a unique depth of gloss and mirror like finish. Minimal dropback. Recommended for harder clear-coats. P-12 XTRA Benefits from an enhanced lubrication system which can be worked for prolonged periods without drying out

Part #713: 1kg, 250ml

P-40 XTRA

Ultra-Fine Finishing Glaze, specially formulated ultra-fine compound using the latest DRA™ (Dynamic Response Abrasion) technology incorporating micro-precision oxides. Designed and formulated for fast and easy final finish polishing to remove holograms, swirls and light defects. MINIMAL DROPBACK. Highly recommended for problem dark paint colours

Part #711: 1Kg, 250ml

ALL-IN-ONE PRODUCTS

...GIVING YOU XTRA!

P-15 XTRA

Fast -Cutting Compound Easily removes imperfections, scratches, swirls and oxidation from all finishes including scratch-resistant, UV-cured and aged paints in the shortest possible time. P-15 XTRA benefits from a lubrication system which can be worked for prolonged periods without drying out. Mirror-like high gloss finish, Does not contain fillers

Part #710: 1Kg, 250ml

P-60 XTRA

Silicone free. One-step finishing compound incorporating DRA™ Technology, removes fine scratches and swirl marks whilst delivering Carnauba Wax protection to leave a superb deep gloss shine - all in one-step! Corrects P4000/P6000 abrasive equivalents.

Part #427: 1L, 250ml

BUDGET RANGE - LIQUID COMPOUNDS

P-15

Originally designed to be used on MS-paints, use P-15 for permanent removal of scratches up to P1200 depth. Use with Maroon foam mop for removal of P1500 scratches.

Part #70005: 1Kg

P-30

Use with Lambswool mop for permanent removal of P1500/P2000 scratches. Use Orange foam mop for quick and permanent removal of scratches up to P3000 depth. Use with Black foam mop for removal of P4000 scratches.

Part #70021: 1Kg

PASTE COMPOUND

P3 PASTE

Outstanding scratch removal and high gloss finish on all paint types – new or old. Quick to clean up. Leaves a high clarity, deep gloss shine. Wide variety of paint rectification applications; bodyshop, detailers, new/used car retailers, industrial, furniture, marine etc. Works with most types of polishing foam mops or for greater cut can be used use with lambswool buffing pads.

Part #40003: 1.2Kg, 3Kg

Polishing Pads/Mops

With the myriad of Foam Pads on the market it is not always easy for the user to determine which foam pad will deliver the best results. The construction of foam cell size, compression strength and foam hardness all play vital roles in delivery of the ultimate machine polishing results. The foams used in the Surf-ACE Program have all undergone extensive testing so that, in combination with Surf-ACE DRA Compounds, deliver the ultimate finishing performance

P-12 Maroon Compound Foam

Compound foam with chamfered sides which increases surface contact for greater efficiency of polishing. Engineered to work in combination with P12-Xtra Compound for the removal of fine to heavy scratch marks.

#90029: 95x25mm
#90028: 155x25mm
#90019: 175x25mm

Flat faced compound foam with chamfered sides which increases surface contact for greater efficiency of polishing.

FAST-FIX Hook-it system for easy pad exchange.

For use with Rotary and DA Machines.

2000 RPM
1500 RPM
1000 RPM

Can be used for slow or speed machine polishing dependent on the hardness of the paintwork.

WOOL BUFFING - FOR EXTRA CUT

Recommended for automotive and marine gelcoats

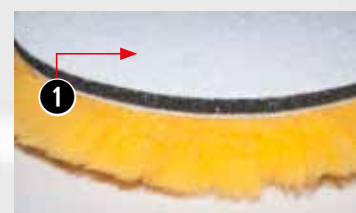

XC-15 Gold Micro-Wool Pad

Delivers the speed of cut of a conventional lambswool pad without

the creating micro scratches and swirls. Effortlessly removes deeper scratches (P1500) and leaves a high gloss finish.

#90015: 80x25mm
#90014: 150x25mm
#90026: 180x25mm

1 Gold Micro-Wool pad incorporates a flexible durable interface pad which is adhered to the wool without the need for stitching, giving it greater flexibility on contoured surface areas.

2 The flexibility and washability of the Gold Micro-Wool lends itself to increasing pad life and offers a reduction in the induction of heavier swirl marks due to twisted knotted wool fibres.

3 The Gold Micro-Wool is more aggressive than conventional wools and delivers an increased level of scratch removal on harder clearcoat substrates.

P-30 Orange Swirl Remover Foam

Swirl removing fine compounding foam

#90025: 80x25mm
#90024: 150x25mm
#90027: 165x30mm
#90023: 175x25mm

P-40 Black Finishing Foam

Ultra-fine and soft polishing foam removes holograms, will not create swirls and leaves a mirror finish to any paintwork

#MMB33009: 80x30mm
#91211: 150x30mm
#91213: 165x30mm
#MB33003: 175x25mm.

Fast-Fix Backing Plates

Chamfered edge for easy peel without damage to pad. Backing plate fits exactly to the area of Fast-Fix to ensure easy centring of the pad

#B22204: Mini 73x14mm
#B22203: Maxi 112x14mm
#91104: Reg 138x14mm
#B22202: Super 156x14mm

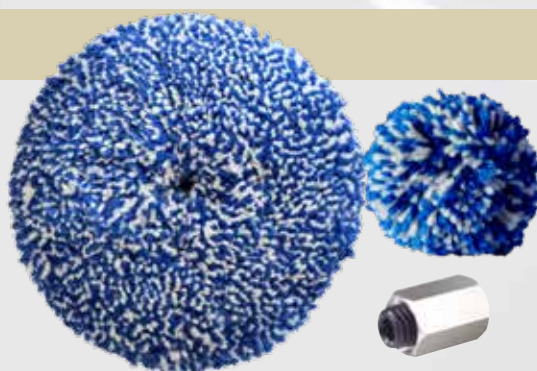

Merino Lambswool Pad

A pure 100% Merino natural lambswool for elimination of P1500 or finer scratch marks.

Super-fast cutting action. Highly durable and washable.

#90016: 80x22mm
#90013: 150x22mm
#90012: 180x22mm.

Superbuff Double-Sided Wool Mop

#91108: 8 inch

Double-sided, deep pile lambswool heavy-cut pad. For fast renovation of larger areas of painted surfaces in automotive and marine applications to remove heavy scratches and oxidation. Use with 14mm thread polishing machines, order adaptor #91109.

#91110 | 3" #91112

Surface Preparation

MATTING AGENTS

WATER-BASED ABRASIVE - CLEANING & PREPARATION SYSTEMS:

- Ideal for cleaning & abrading plastic bumpers & rubber parts prior to painting.
- For blending-in of new paintwork when carrying out local repairs.
- For clearcoat preparation.
- Consistent even key: enhances coating adhesion by creating a smooth even surface preventing any 'swelling' in blend areas.
- Prevents problems of scratches or tramlines that can sometimes appear through the clearcoat.
- No residues to impair paint adhesion.

2 OPTIONS – YOUR CHOICE:

M'n'M MATTING MOUSSE

- Hand or machine use
- Foaming Product
- Ideal for larger Surface Areas such as bonnets and roofs

Part #70008: 3kg, 1Kg, 500gm

FLAT-MATT

- Hand use only
- Isolated-difficult areas including door handles, door locks
- Door jams, sills, drip channels, bumper recesses

Part #70006: 1Kg, 500gm

**TRIPLE ACTION IN ONE EASY STEP:
ABRADE, CLEAN AND DEGREASE
...FOR PAINT ADHESION YOU
CAN RELY ON**

INSPECTION

PANEL-PREP DEGREASER

Super-efficient cleaner for surface preparation. Removes grease, oils, silicones, waxes, dirt and other surface contaminants from metal and plastic substrates prior to painting. Reduces static build-up. Incorporates a biodegradable "green solvent".

Part #ZIR50305: 1L, 5L

Spray & Finish

Bodyshop safe formula for cleaning and complete removal of compound residues, light dirt, water spots from paint, glass and plastic surfaces. Can also be used for removing compound residues from plastic mouldings and rubber. Speeds up work process. Brightens paintwork giving greater gloss and depth of shine to paint finishes.

Part #487: 1L, 5L

PAINT OVERSPRAY & FALL-OUT REMOVER

Clay Bar

Problem solving cleaning bar to remove industrial fall-out, paint overspray, tree sap residues etc. from paintwork, glass, plastics, chrome. Saves time. Easy and safe to use.

Part #13408: 200gm

Clay-2-Go Lube

For lubricating surfaces whilst removing surface contamination through the claying process (clay bar, clay pad, clay towel).

Part #90405: 5L

Finishing

PROTECTION

Infinity Nano Polish

Super High Gloss Polish with "lotus-leaf effect" nano technology for all modern finishes including ceramic clear coats. Polished surfaces resist dirt making surface easier to clean. Incredible wet paint gloss effect.

Part #461: 1L, 5L

Speed Wax - Carnauba

A luxurious polish with natural protection using only pure Carnauba Wax to deliver incredible depth of gloss finish. Luxury Carnauba Wax creates a wax film with enhanced durability meaning polished surfaces will withstand up to 50% more washing cycles compared with conventional polishes. Easy to apply, either by hand or polishing machine.

Part #971: 1L

Ovation Resin Wax Polish

Used to add a long life wax protection to the compounded paint surface. Easy to apply and buff off, Ovation enhances paint gloss clarity and depth of shine. Very low chalk

Part #961: 1L, 5L

SPEED DETAILING INTERIOR/EXTERIOR

Spray Shield

Gloss or Matt speed polish - exterior/interior speed detailing and protective coating - over-paintable!

A unique spray, wipe and easy-buff coating for fast protection of all solid surfaces: paintwork, plastics, laminate and glass. • Spray Shield does not alter the sheen of the item being coated: Wet look coatings are sealed and remain at 100% gloss. Dead-matte lacquers stay matte. • Spray Shield removes showroom fingerprinting effortlessly on all hard surface areas.

Part #595: 1L

Microfibre cloths

DRYING: SAVING TIME

ARID - LUXURY MICROFIBRE DRYING TOWEL

APPLICATION: Double-sided ultra-deep TWISTED FIBRE PILE, EDGELESS, delivers double the absorption. • Single pass -reduces drying time by 50% • Dries vehicle without scratching or leaving swirl marks. • 50 x 80cm. 1400gsm.

Pk.of 1: = 25 per Ctn. #0214

GLASS: FASTER & EASIER

G & T - GLASS & TRIM CLOTH

APPLICATION: G & T microfibre cloth quickly removes the residues of glass cleaner to make glass cleaning easier and faster. Perfect streak free cleaning for windows, mirrors, chrome, and all smooth surfaces. Also great for computer screens, cell phones, LCD screens, spectacle/sun-glass lenses. • 50 x 60cm. • 330gsm.

40 Pks. of 5 = 200 cloths per Ctn. #0248200.

BUFFING: HIGH GLOSS – CLEAN FINISH

FLUFFY - TWIN SIDED ULTRASONIC EDGELESS

APPLICATION: Ultra-soft luxury long-pile, quickly removes residues of detailing sprays and waxes. Durable and scratch and streak free polishing. Easily lifts dust, dirt and grime. • 45 x 45cm. • 460gsm.

40 pks. x 5 = 200 per Ctn. #0247200

MICRO-ACE BLUE - UNIVERSAL MICROFIBRE CLOTH

APPLICATION: Multi-function/all-purpose cleaning & polishing microfibre cloth. • Very fast dirt pick-up performance. • Professional weight cloth for use by Detailers - Bodyshops - Waterless Vehicle Cleaning. • Ideal for removing compound, polish and wax residues • radius corners/non-scratch. • 40 x 40 cm. • 350gsm.

Pk. of 10 x 3 cloths [= 30 Cloths per Ctn.] #0225.

20 Pks. of 10 = 200 cloths per Ctn. #0225200

CAP-4 GREEN - UNIVERSAL MICROFIBRE CLOTH

APPLICATION: Multi-function/all-purpose cleaning & polishing microfibre cloth. • Very high dirt pick-up performance. • Professional weight cloth for use by Detailers – Bodyshops – Waterless Vehicle Cleaning. • Ideal for removing compound, polish and wax residues • radius corners/non-scratch. • 40 x 40 cm • 350gsm.

Pk. of 10 x 3 cloths [=30 Cloths per Ctn.] #0227

20 Pks. of 10 = 200 cloths per Ctn. #0227200

SUPER ZIRCONITE - CERAMIC/QUARTZ POLISHING CLOTH

APPLICATION: Specially designed with high-absorbency for final polishing of ceramic/glass/quartz coatings Superfine weft microfibre weave. • Radius corners/no care label/non-scratch • 40 x 40 cm • 340gsm.

Pk of 10 x 2 cloths = 20 Cloths per Ctn. #ZIR049

150 Pks. x 2 = 300 cloths per Ctn. #ZIR493300

Hand Cleanser

RES-Q HAND CLEANSER XTREME

PAINT & RESIN HAND CLEANSER PASTE

- **High performance:** safe and effective for removal of 2K Paints, lacquers, adhesives, polyurethane, sealants, epoxy and polyester, inks etc., as well as oils, grease and general workshop grime.
- **Non-Irritant:** Mild on skin: no more use of irritant or harsh flammable solvents, thinners or paraffin.
- **Natural ingredients:** formulated with naturally derived surfactants from coconut oil, gentle fatty acids and moisturising agents, the skin is cleansed, hydrated and moisturised all in one.
- **Extra Tough:** Res-Q contains a superfine naturally occurring cosmetic exfoliant to further enhance the cleansing action.
- **Clean Fresh Fragrance:** Res-Q leaves hands with a freshly cleaned, smooth and soft feel.
